EXPERIENCE

Freelancer

2020-2022

As an experienced freelance developer, I have undertaken multiple e-commerce projects across diverse technology stacks. These projects have entailed developing robust backends using top-tier frameworks such as PHP, Laravel, Node.js, JSP, and ASP.NET, while simultaneously constructing elegant front-end interfaces using HTML, CSS, JavaScript, jQuery, and React.js.

Senza Solutions

2021-2022

I've worked at Senza Solutions as a PHP Laravel developer for a period of two years, during which I gained invaluable experience in developing robust back-end solutions using the Laravel framework. Additionally, I also served as a Node developer for six months.

Omeecron Solutions

2022-2023

As a PHP Laravel developer at Omeecron Solutions, I acquired extensive experience in designing and developing robust back-end solutions using the Laravel framework.
